Workshop Description:

The fun and fascination of weaving with various fibers will be taught using a floor loom. The construction and threading of the loom will be taught. We will then proceed to learn to weave on it. The process will include preparing shuttles, winding balls, making butterflies, and learning to create various weaves on a basic four-harness loom. This includes striping, plain weave, basket weave, running two fibers alternatively, textures, fringes, some basic lace making techniques (leno), some warp wrapping and other possibilities will be demonstrated. The great advantages to working with a loom will be demonstrated. Many projects can be constructed on it. It is reusable. It allows the artist to work in a fascinating format that allows for quick construction and can add patterns and fringes. Intermediate students will learn tapestry pick-up, rug techniques, and doubleweave to further their information and will make an actual project. The loom has a magical draw that is fun and exciting.

Students must bring scissors and a yarn needle and a small notebook. Warping material and sample yarns are available **at a materials fee of \$15.**
